

Gauzy LCG® Maintenance Notes

Gauzy's LCG® is engineered and manufactured to operate without any special maintenance requirements for long periods of time. In order to ensure your product in a good condition for its entire life, and prevent it from being damaged, please follow the maintenance guidelines below:

- Cleaning the LCG® can be done in a normal way, as it is generally done for regular glass. Use a soft cloth wet with small amount of water or window cleaner.
- Do not splash water directly on the LCG®'s surface.
- Do not use any sharp tool to clean or remove dust from the LCG® surface as it can scratch the glass.
- If there is a need to use silicon materials to seal the LCG® frame or fill glass joints, please refer to Gauzy technical note TN014: Silicone Sealants for use with LCG®. The use of non-compliant silicon materials will create permanent damage to the product.
- Do not perform any alterations in the electrical system without receiving first Gauzy's approval.
- If any malfunction of the product is observed, disconnect the LCG® from the electrical supply and contact Gauzy representative.:
